

CS Cane Corso Companion Contract

Puppies will be checked by a licensed Vet, in good health with shots and worming to date. Puppies need to be checked by your own licensed vet within 5 days of receiving him to verify his good health upon arrival and to ensure you will continue to have your pup under good care. CS Cane Corso takes no responsibility for any communicable disease the puppy may receive after 5 days of puppy's arrival. If vet finds puppy to be of unstable health you will let us know immediately with proof from licensed vet and return puppy immediately. Buyer will be responsible for all shipping charges. We will replace puppy as soon as one of comparable value becomes available. No money will at any time be refunded. All puppies come with their tails docked and dewclaws removed and micro chipped. Buyer is responsible to register micro chipping. Puppies will be guaranteed against crippling Hip Dysplasia for 36 months. (We feed our dogs/puppies only high quality dog food to help ensure best possible nutrition for fast growing puppies and healthy mature dogs.) This is extremely important for the dog's growth and continued health. We recommend you feed a comparable dog food for this guarantee to hold. A Cane Corso pup who spends much of his time in a crate will also not have the Hip Dysplasia guarantee as proper exercise is equally important for proper growth and development. You must also care not to overexert the puppy until it is fully developed between 2 and 3 years of age. If you don't have the time to or money to properly care for your Cane Corso don't buy one.

You will continue with good care for your Cane Corso including all necessary immunizations and heart worm protection.

Should you have the unfortunate experience that your pup develops crippling Hip dysplasia within the said period of time we will replace your puppy with one of comparable value as soon as one becomes available. You must send us the OFA or Penn Hip papers with the dog's microchip # on it and a picture (snapshot) of the x-ray and the spay/neuter proof. My vet will verify the condition to be true before replacement is made.

Puppies will carry the CS name along with their name on their registration papers.

At CS Cane Corso we have done everything to produce stable-minded puppies, both in breeding and early socialization. It is the buyer's responsibility to continue this by taking the puppy to kindergarten and obedience in the first year. This will help your puppy's confidence and make him more socialized and well mannered.

Remember a cute puppy is growing into a large powerful dog and needs to be well controlled.

Dog is not allowed to be used in any illegal activities.

Companion puppies need to be spayed or neutered by 8 months. You will receive the registration papers for your puppy once you provide us with proof from your Vet that your puppy has been altered.

Under no circumstance do we grant cash refund or except any liability for medical expense, veterinary fees or any other expense related to the care of your CS Cane Corso. Congenital health of your puppy is also guaranteed for 36 months. You must send written vet statement describing health problem. Including contact information of said vet. Once my vet contacts said vet and concludes statement true. Then same process as stated for Hip dysplasia will occur. Cherry Eye, Entropion and Ectropion are common conditions with all Mollosser breeds and are not covered by our guarantee.

Any breaching of this contract will make it void.

We have no other guarantee other than those stated on this document. By signing this buyer and seller agree to hold to their part of the agreement.
